

Crocodiles & Tadpoles

This is a great game for practising stopping and making the pony walk faster – or maybe a little trot.

EQUIPMENT NEEDED

Four poles and four cones

ARENA SET UP - Place the cones and poles as illustrated below, making sure there is sufficient room for the pony to halt in the gap between the poles.

GAME

- Between the poles is a pond.
- In one pond are tadpoles and in the other are crocodiles.
- The rider must go round the cones to get from one pond to the other.
- The rider stops in the tadpole pond to admire the baby frogs and
- Goes faster through the crocodile pond to avoid being eaten!
- The rider can choose which type of pond it is.
- Once a rider has gone through the first pond the next rider can start.
